OAUG News Release

OAUG Offers Educational and Networking Opportunities at Oracle OpenWorld 2013

ATLANTA – Sept. 17, 2013 - The Oracle Applications Users Group (OAUG), the world's largest knowledgebase for Oracle Applications users, announced its schedule of hosted meetings and educational sessions at the upcoming Oracle OpenWorld 2013 conference Sept. 22 – Sept. 26 at the Moscone Center in San Francisco.

Throughout the week, OAUG members deliver more than 10 educational sessions exploring challenges, opportunities and best practices for implementing and managing Oracle Applications. Applications to be discussed include the Oracle E-Business Suite Release 12 and 12.1, Oracle Hyperion Enterprise Performance Management, Oracle Fusion Applications, Oracle WebLogic Server System Administration, Oracle ERP System Implementations and CRM.

More than 40 OAUG geographic (Geo) and special interest group (SIG) meetings are to be held in Moscone Center West on Sunday, Sept. 22, during the Oracle Users Forum. The forum offers attendees networking and learning opportunities with Oracle customers who use similar Oracle Applications.

Attendees interested in membership are encouraged to visit the OAUG kiosk in the Users Group Pavilion on Level 2 or in the exhibit hall at booth number 3416 at Moscone Center West to speak with OAUG board members, volunteers and staff about the benefits of membership. In addition, interested attendees can learn about OAUG programs and resources designed to accelerate professional development and performance potential.

"The OAUG is committed to providing the most relevant and timely educational and networking opportunities at Oracle OpenWorld 2013 to help members of the Oracle Applications users community explore best practices and learn from other Oracle

customers in order to get the most out of their investment,” said Margaret Wright, president of the OAUG.

For more information about membership in the OAUG and the OAUG’s initiatives at Oracle OpenWorld 2013, visit oaug.org.

About the Oracle Applications Users Group (OAUGTM)

Founded in 1990, the Oracle Applications Users Group (OAUG) is the world’s largest user knowledgebase for Oracle Applications users. The organization serves as an advocate to Oracle Corp. for companies worldwide and represents users of more than 65 Oracle Applications products including Oracle Fusion Applications, the Oracle E-Business Suite, Oracle’s Agile, Oracle Hyperion, Oracle’s Primavera EPPM, Oracle Communications, Oracle Customer Experience and CRM. The OAUG provides its members with education, networking and support via a wide range of activities and forums including conferences, publications, special interest groups and online communities. For more information about the OAUG, visit the website at oaug.org.
